03.03.09. I have a robot dream...[Flight of the Conchords - Robots]

The distant future,
The year 2000
The distant future,
The year 2000
The distant future,
The distant future.

It is the distant future,
The year 2000.
we are robots.
The world is quite different ever since the robotic uprising of the late 90's.
There is no more unhappiness.
Affirmative
We no longer say "Yes," instead, we say "Affirmative."
Yes, er...affirmative.
Unless we know the other robot really well.

There is no more unethical treatment of the elephants.
Well, there's no more elephants, so...
Ah, but still, it's good.
There's only one kind of dance: The Robot.
And the Robo Boogie
Oh and the Ro...two kind of dances
But there are no more humans.
Finally, robotic beings rule the world!

The humans are dead.
The humans are dead.
We used poisonous gases,
And we poisoned their asses.

The humans are dead.
(The humans are dead.)
The humans are dead.
(They look like they're dead.)
It had to be done,
(I'll just confirm that they're dead.)
So that we could have fun.
(Affirmative, I poked one, it was dead.)
